

Know the *Truth* about Amendment 2

Missourians Have Access to All Cures Available in America

Amendment 2 deliberately implies a threat that a constitutional amendment is necessary to “ensure Missouri patients have access to any therapies and cures, and allow Missouri researchers to conduct any research, permitted under federal law.” This implication is absolutely **deceptive** and an amendment to the constitution would have devastating effects on Missourians' democracy.

- The people of Missouri already have access to any therapies and cures legally available throughout the United States. Absolutely **NO LEGISLATION EXISTS** that prevents access to any current or future legal medicines that would cure any ailments. This is simply an attempt by supporters to threaten, scare and **deceive** Missouri voters into support.
- Missouri researchers have the same ability to conduct lawful research as those in any other states. Missouri bio-tech companies are freely choosing not to spend their own money on these unproved and supposed cures.
- There is no justification for an amendment to the constitution. In fact, not only can it not be amended by our elected representatives in the Missouri Assembly, **AMENDMENT 2 PREVENTS ANY & ALL NECESSARY OVERSIGHT & REGULATION**. Once voted on, reversing this amendment would be an almost impossible task.

Amendment 2 **DELIBERATLY SCARES and DECEIVES** Missourians into support when a constitutional amendment is not justified and threatens Missourians' democracy.
